THE REGULATORY OUTLOOK FOR TECH

On November 24, 2020 The Information surveyed its subscriber base to find out how they are thinking about and preparing for regulatory changes in tech.

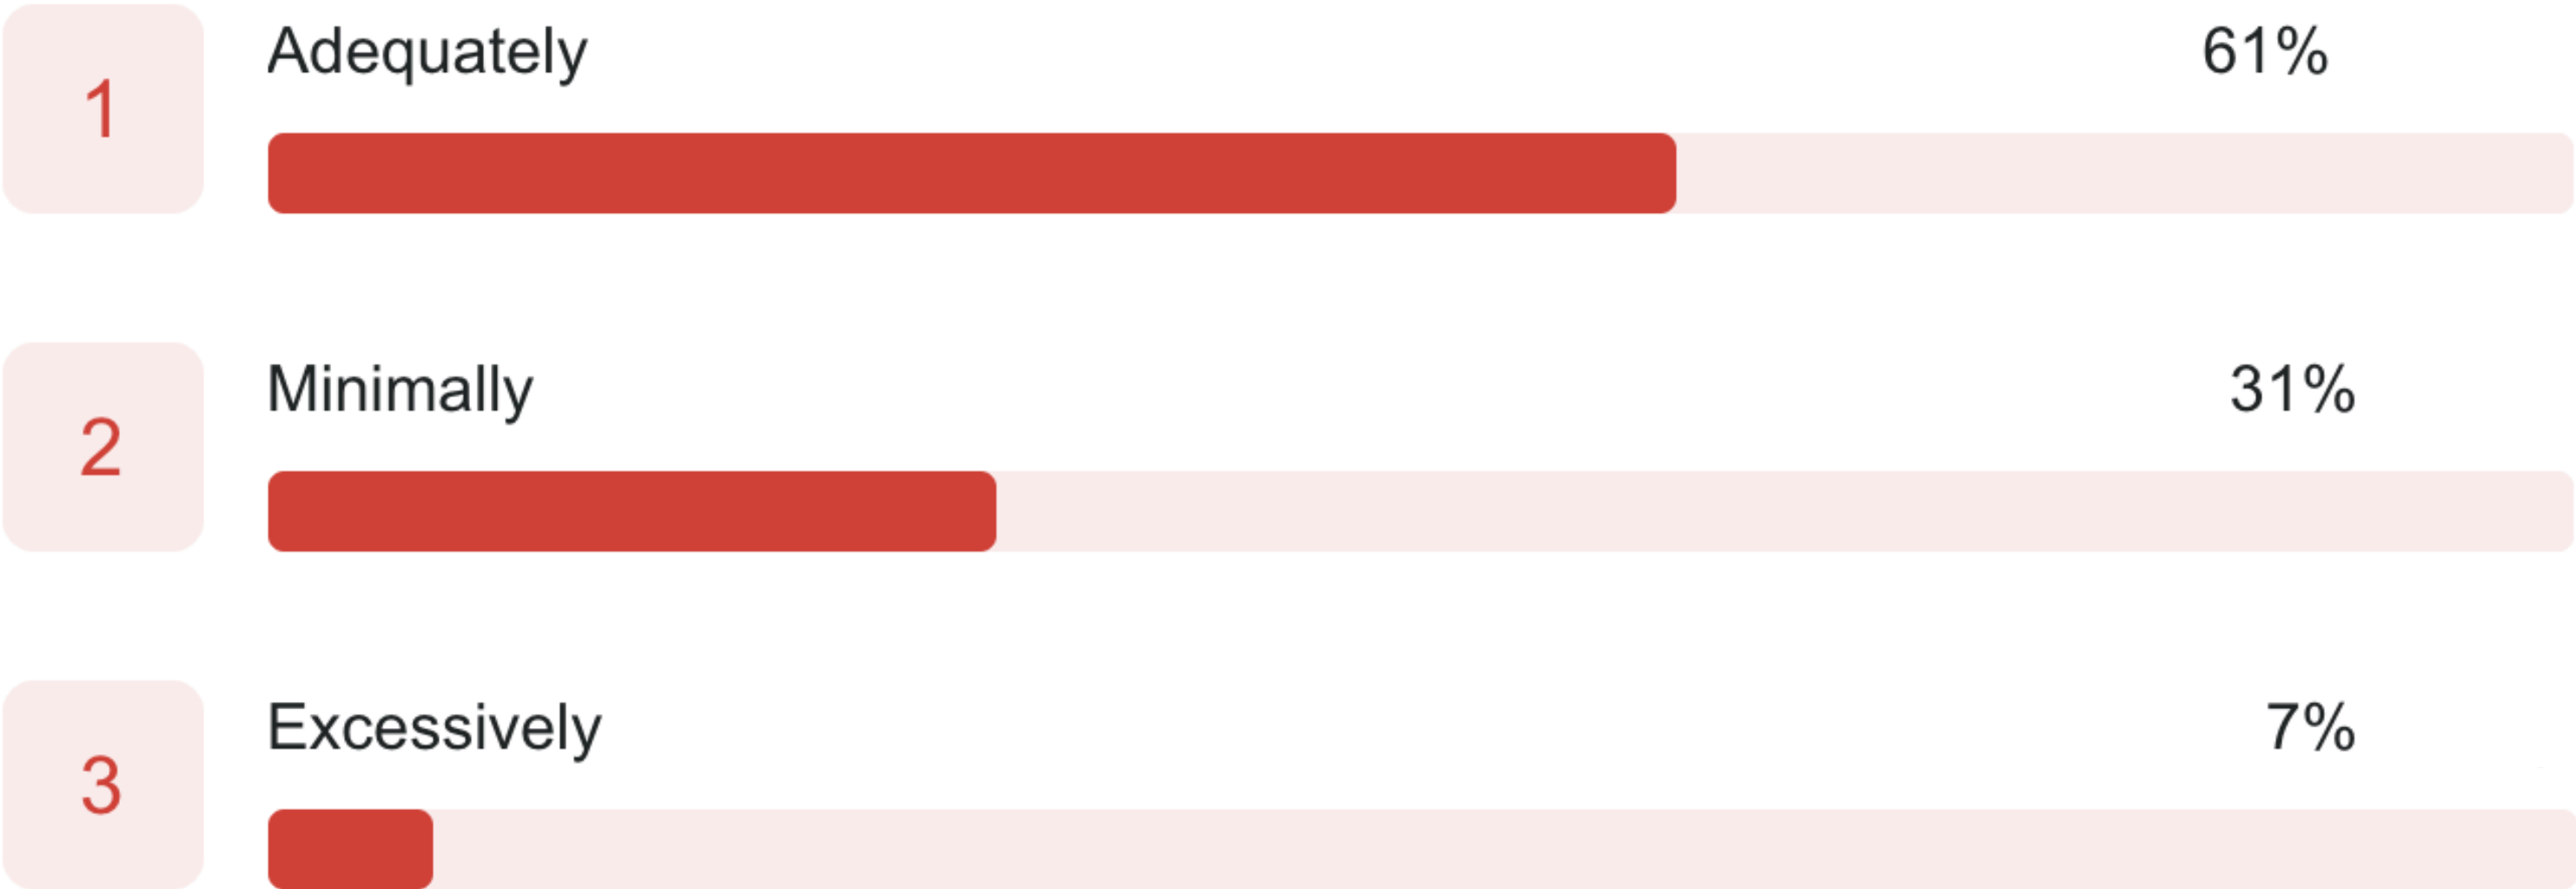

The results of the survey reveal a few key trends in how business leaders are thinking about present and future regulatory policies:

- **61%** consider their company to be adequately investing in ensuring employees are apprized of regulatory compliance.
- **41%** the current antitrust regulations are poor.
- **Top 3 Policies** impacting business include data privacy, workforce and the regulation of emerging technologies.
- **94%** are focused on shaping regulatory policy in the U.S., followed by Europe, China, India and South America.

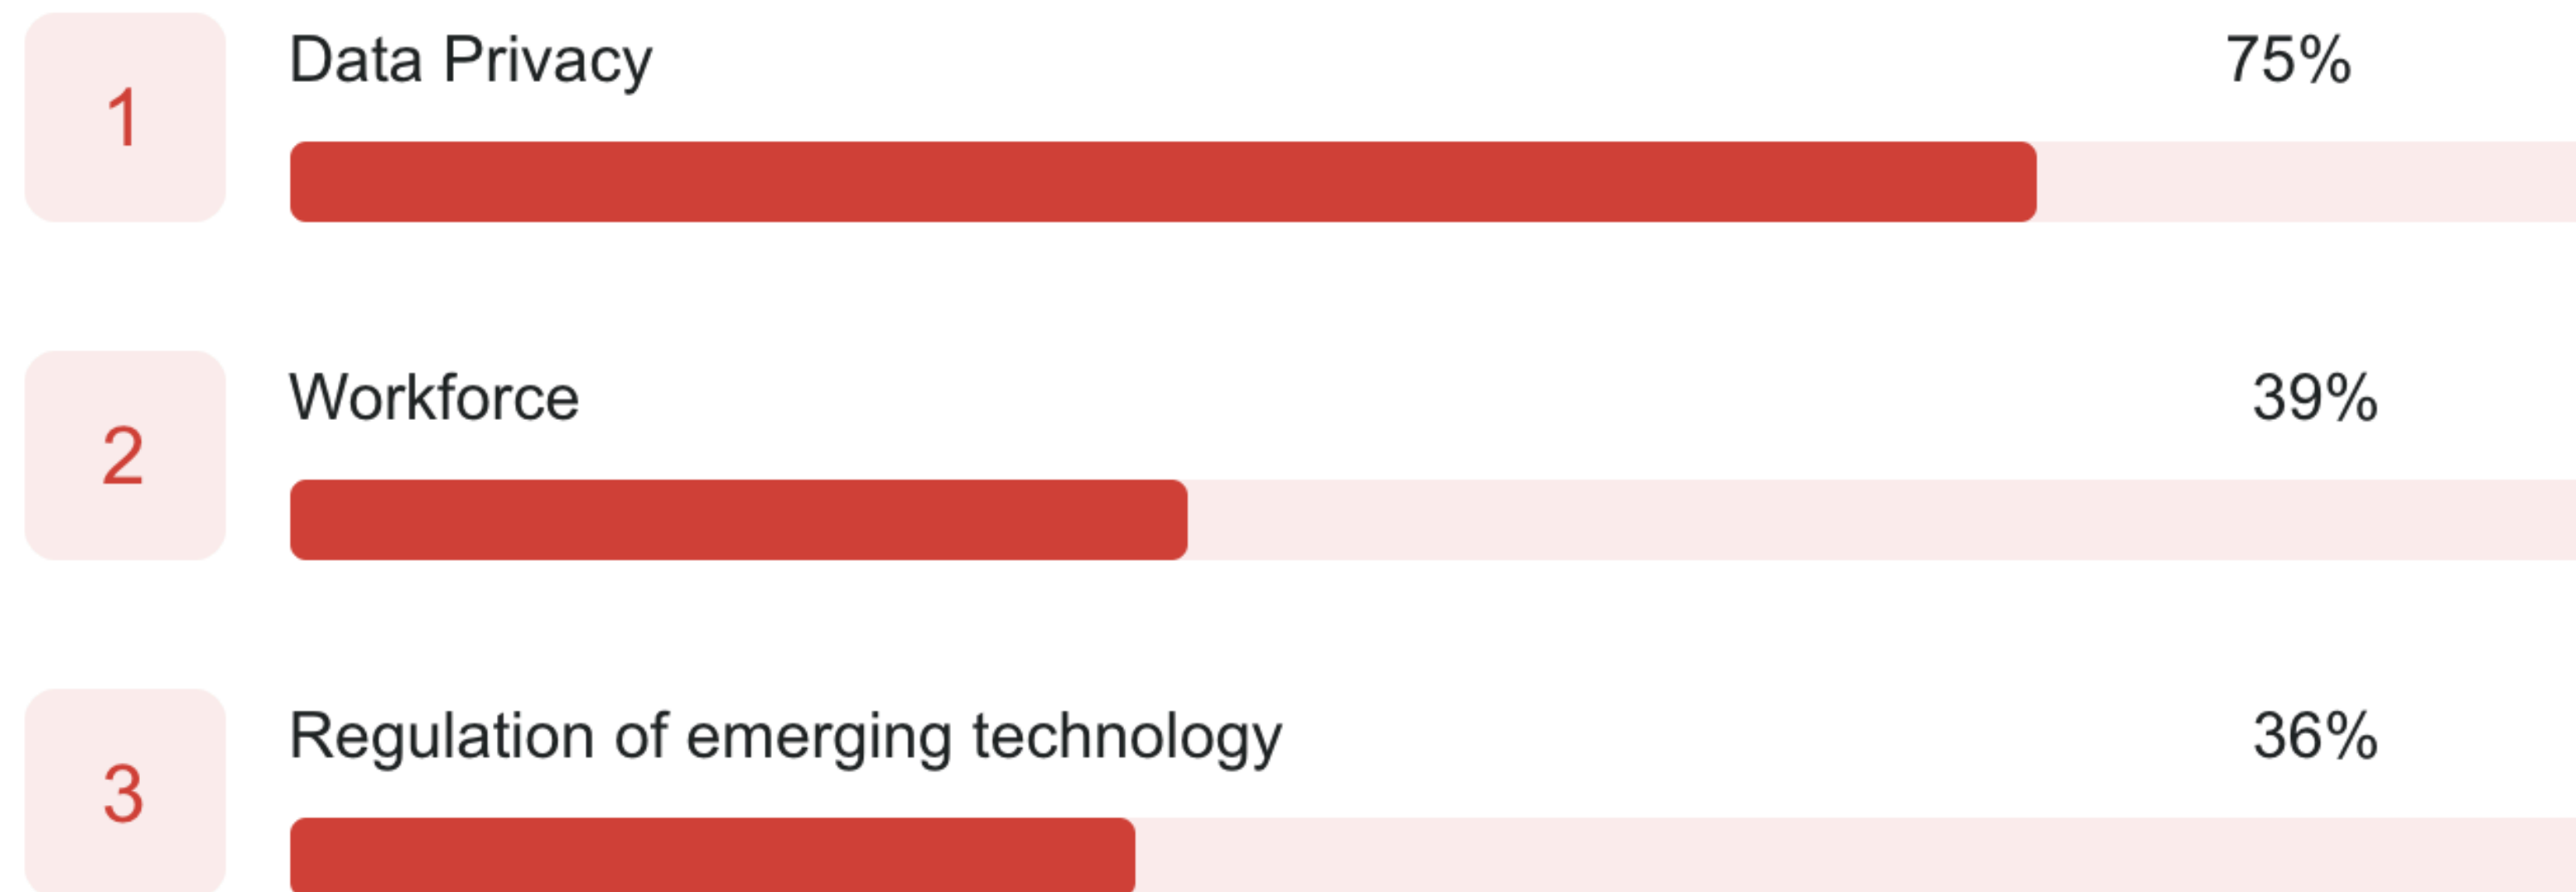

WHAT OUR COMMUNITY IS SAYING...

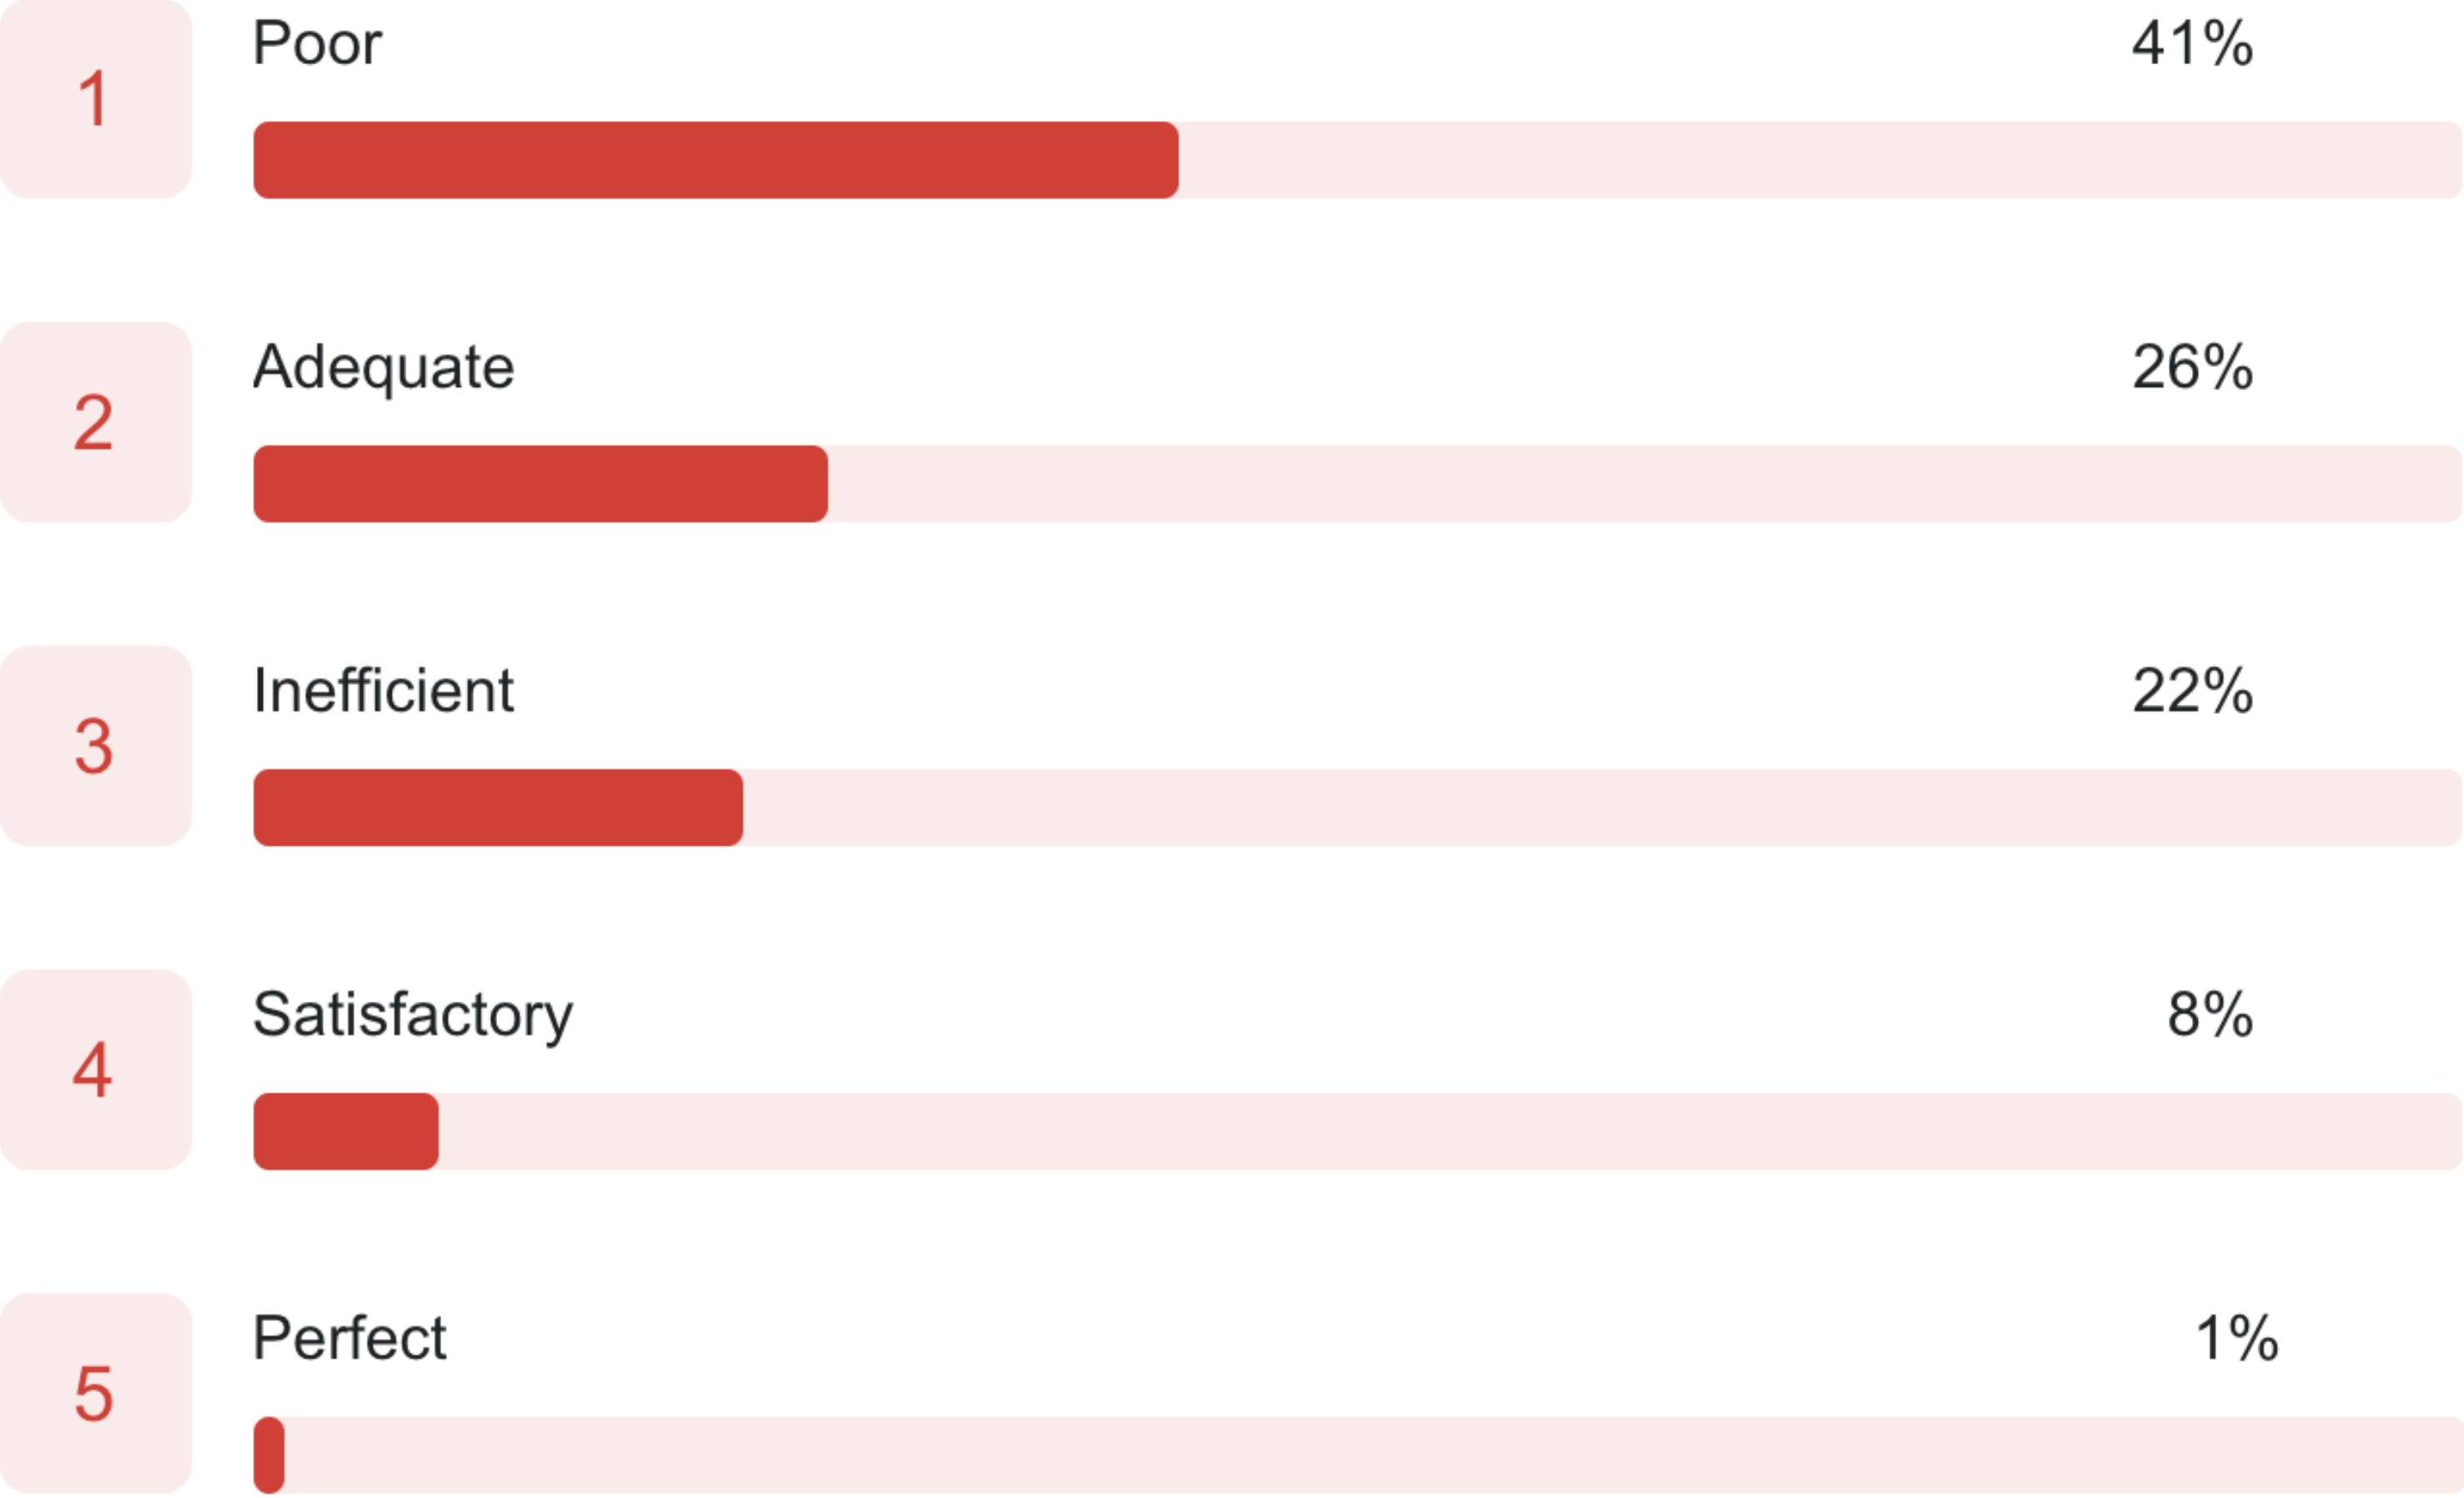

I believe my organization is _____ investing in ensuring all employees understand and are following best practices surrounding antitrust and regulatory policies as it pertains to their role.

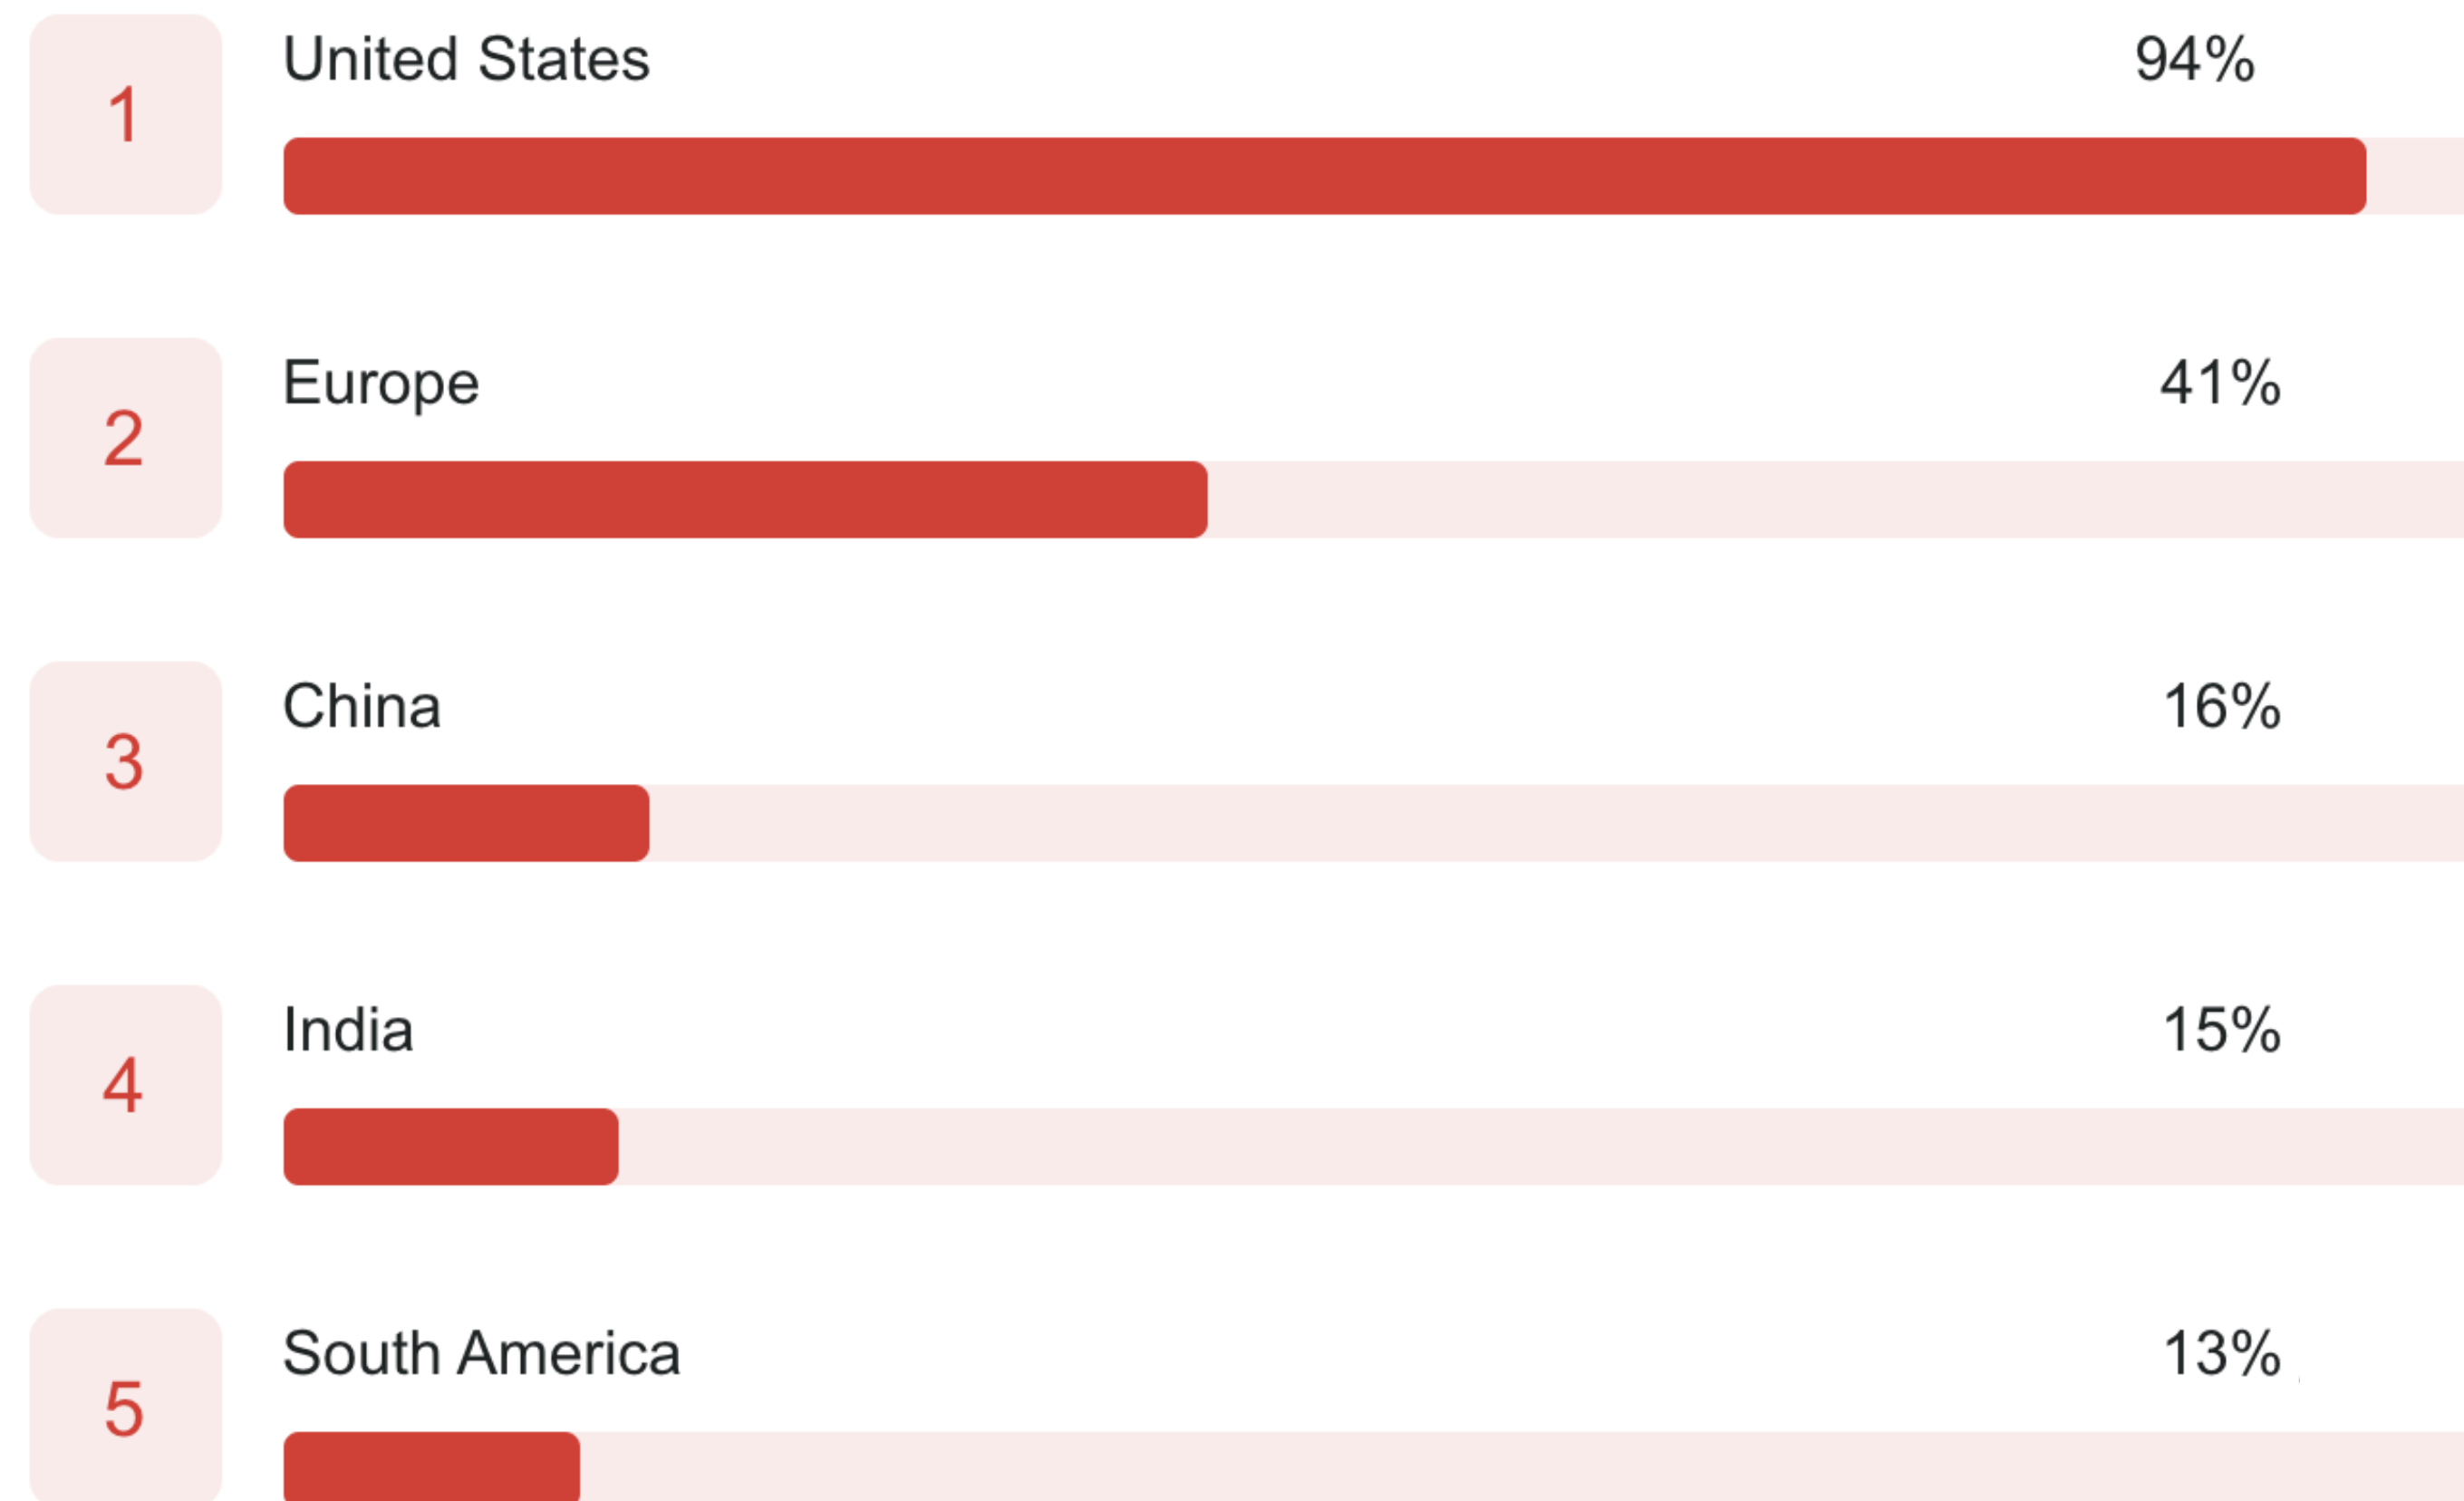

Top 3 policies most likely to impact your business:

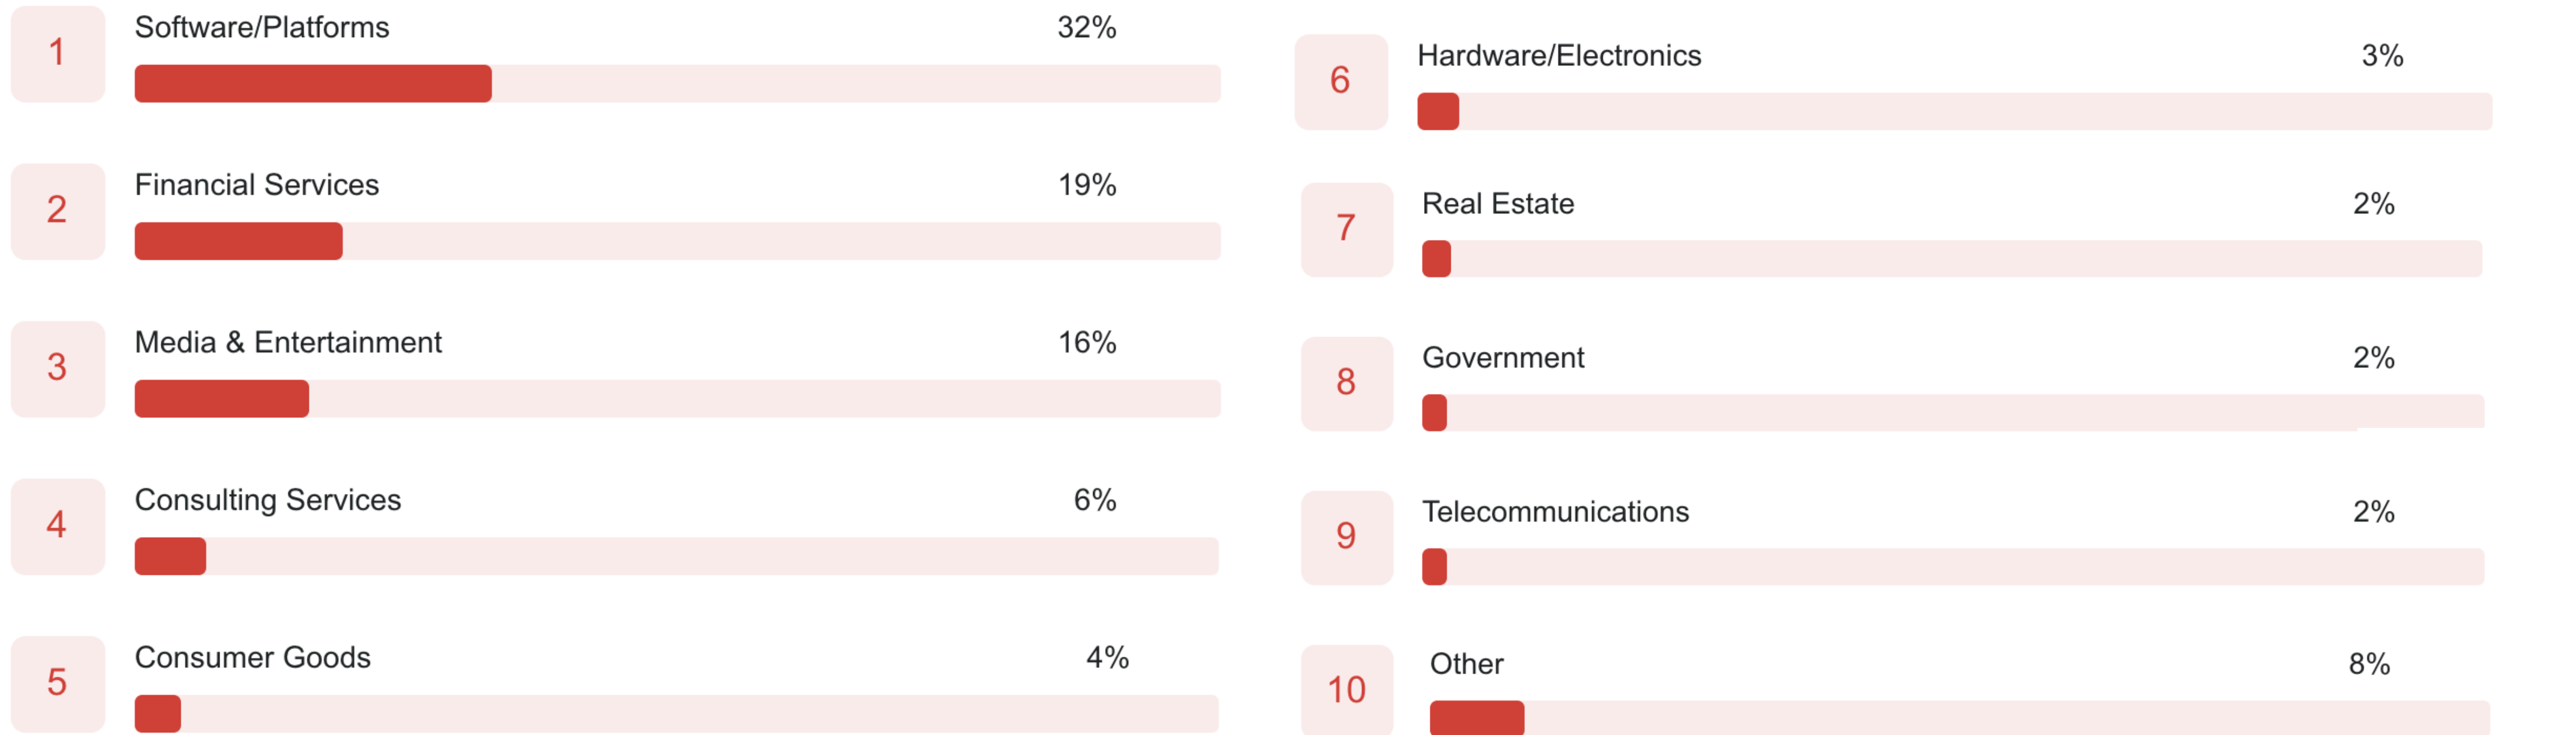

I believe the current antitrust regulations are:

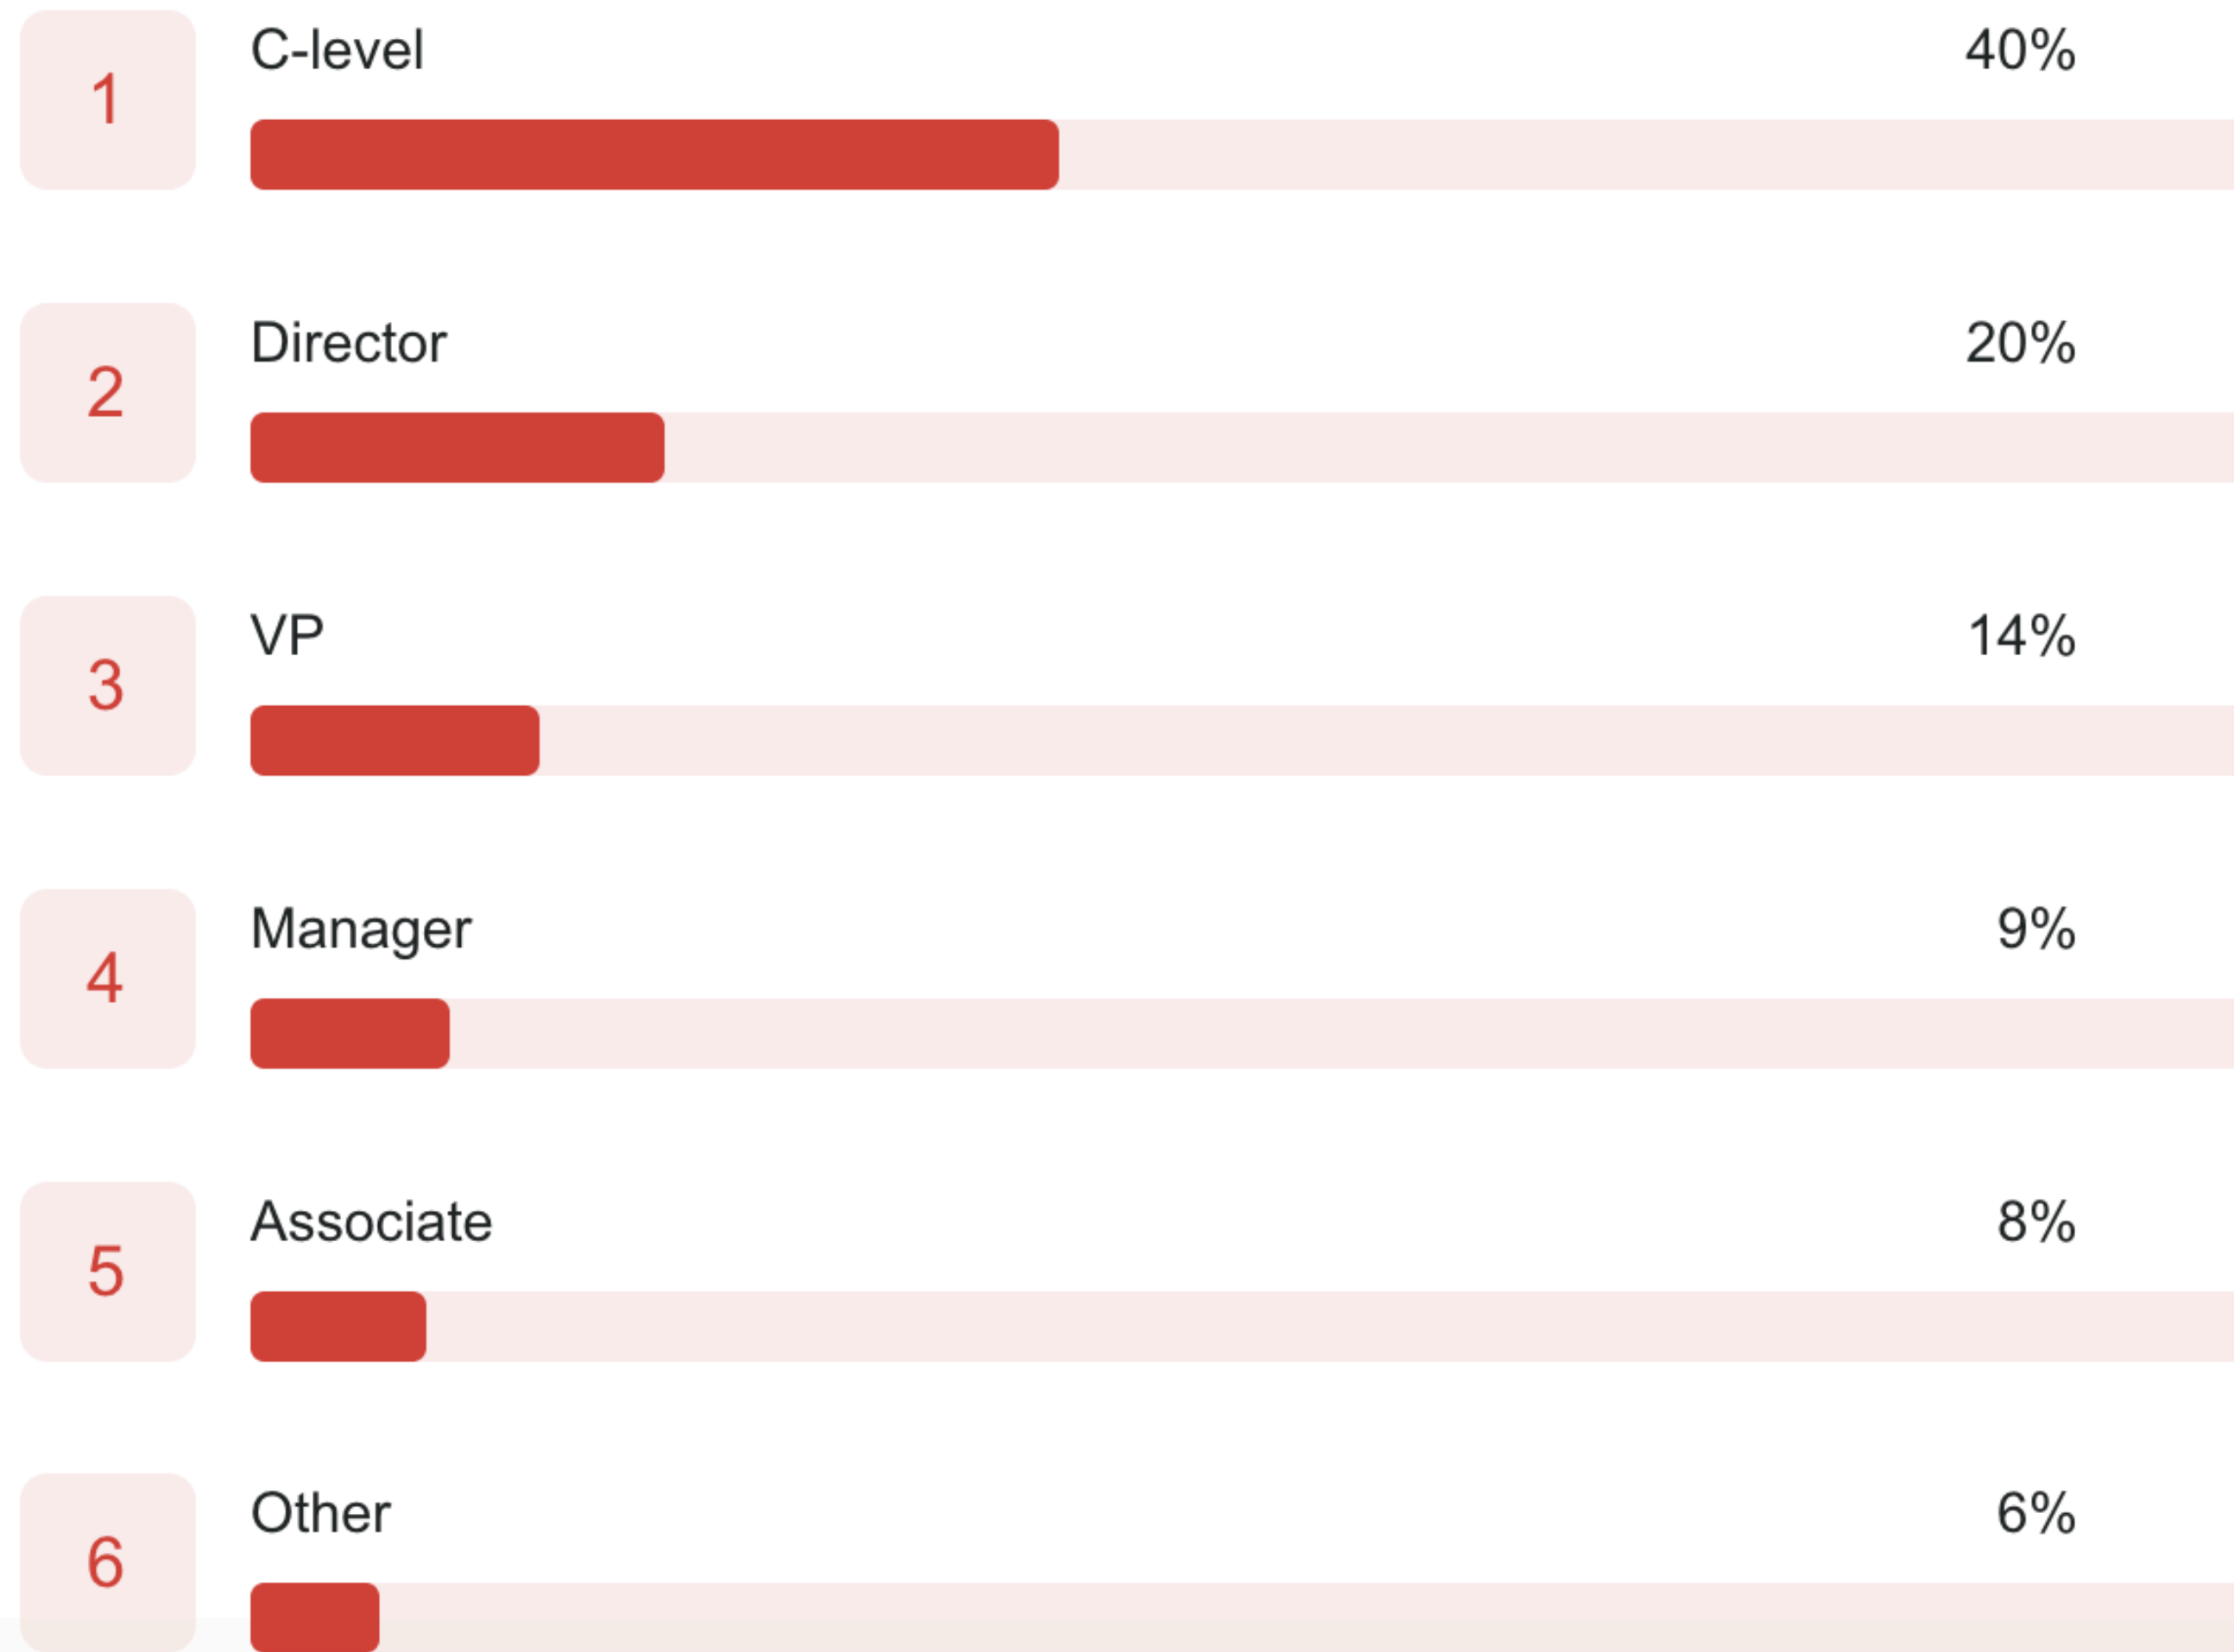

In which parts of the world is your company focused on shaping policy when it comes to regulations that affect your business?

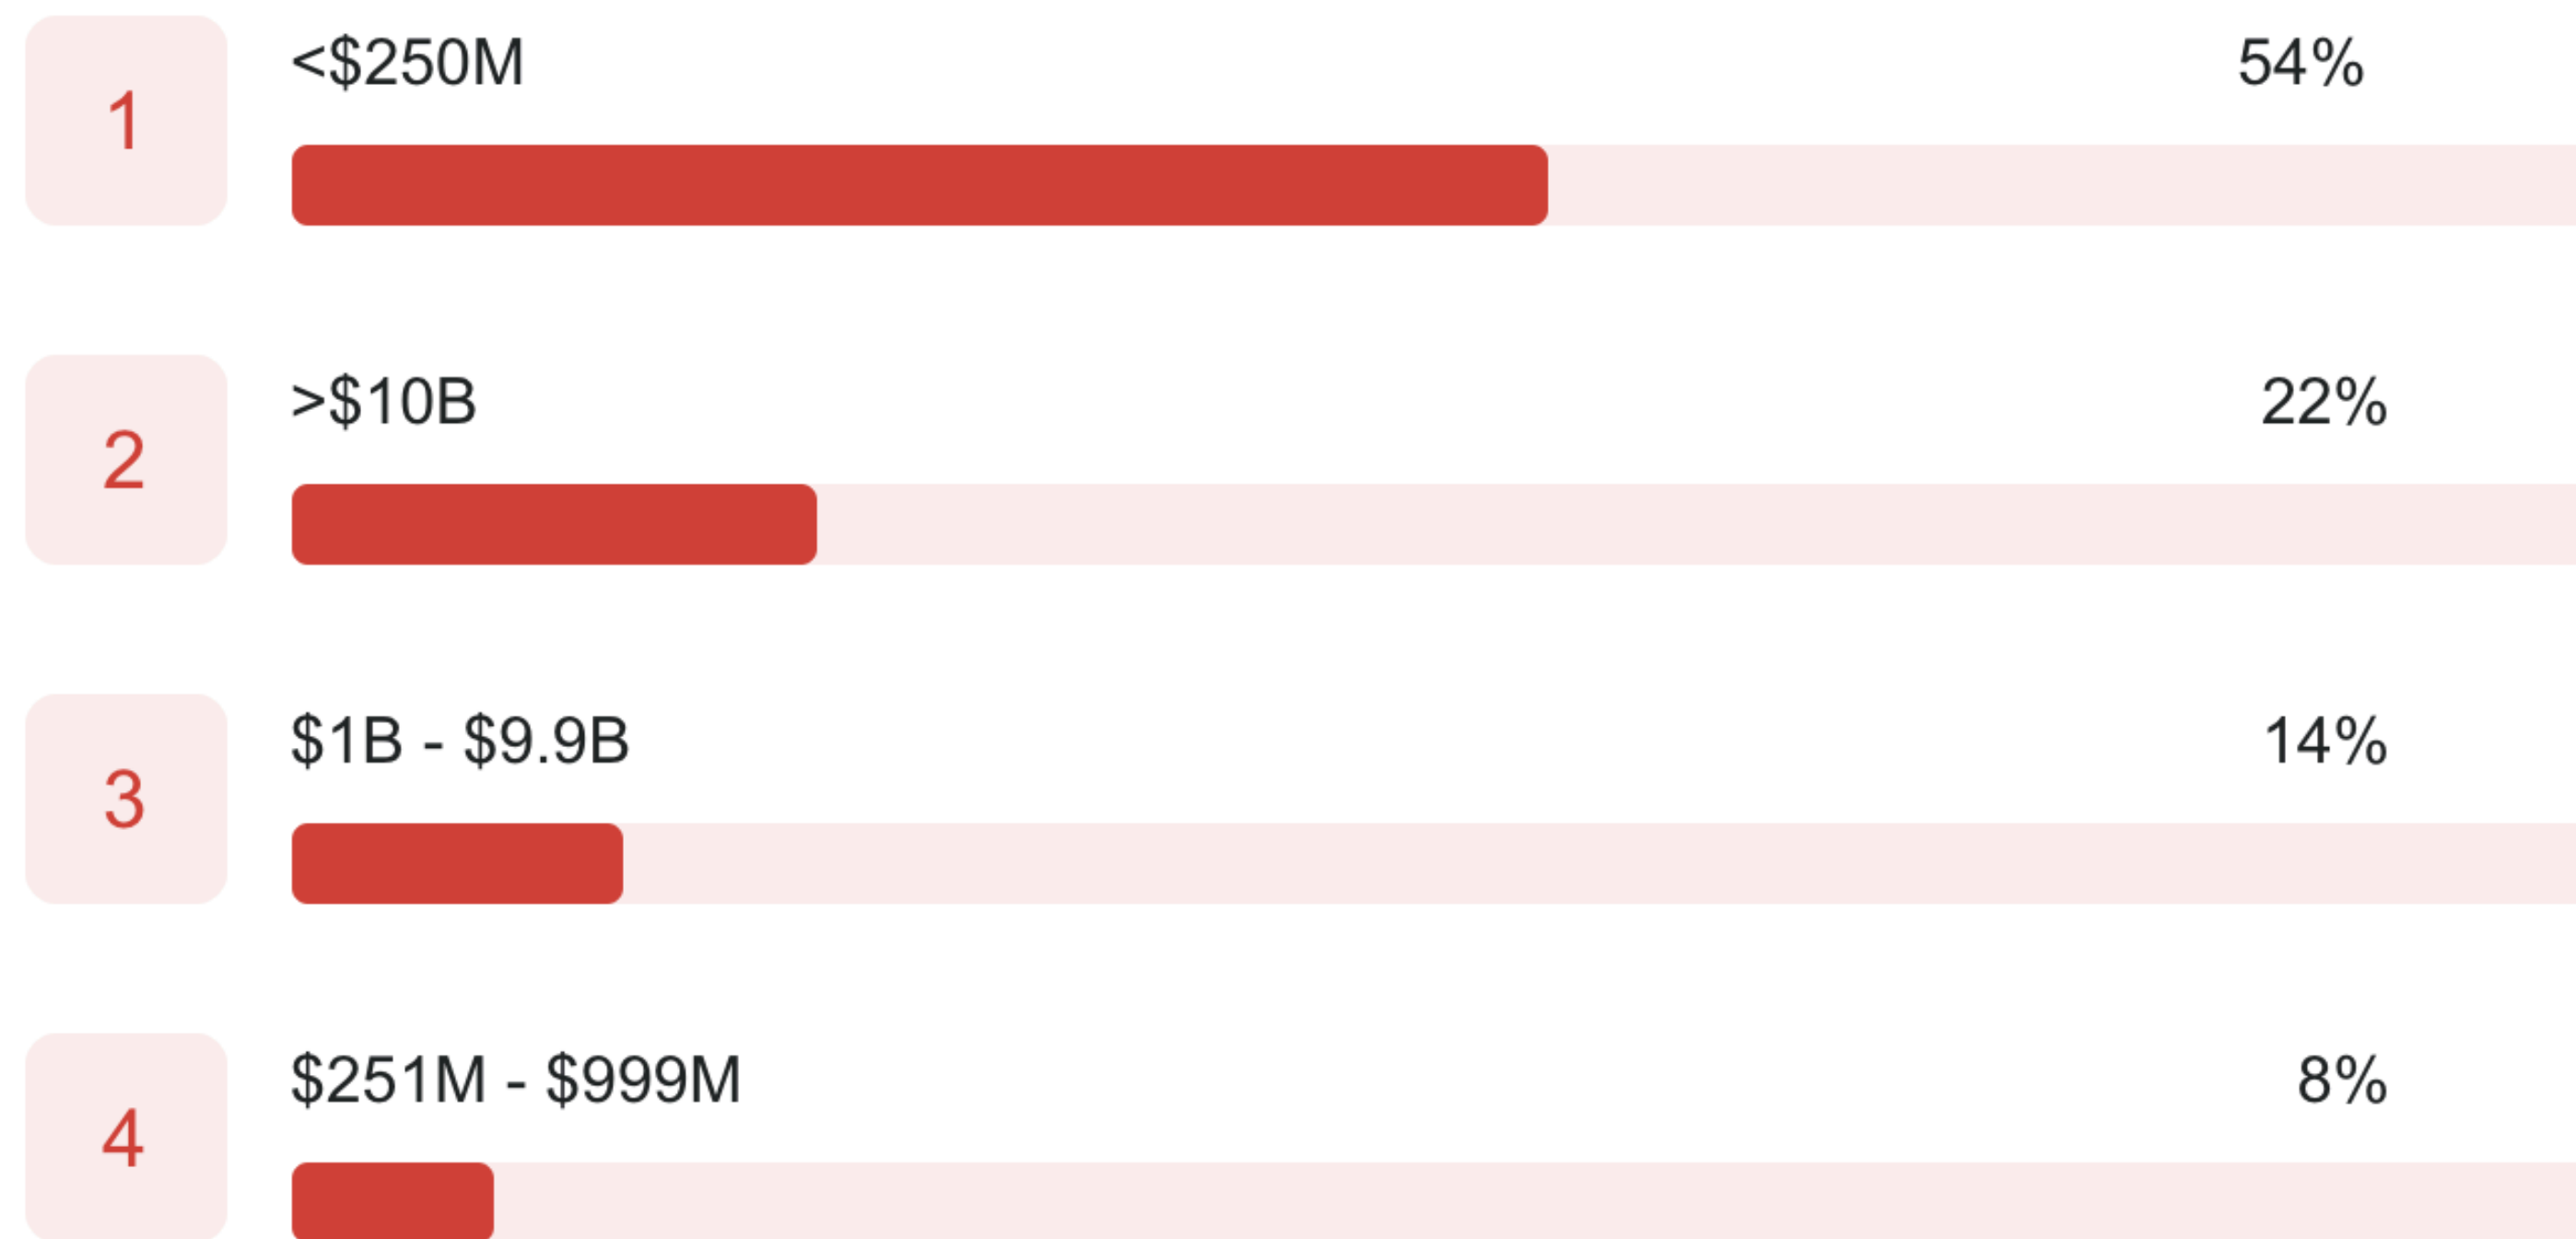

What is your industry?

What is your title?

What is your company's annual revenue?
